

ASYLA

Blended Scotch Whisky

The ultimate “everyday,” “before dinner” or “Sunday afternoon” Scotch whisky. With just a splash of chilled water, this blend of soft, sweet grain whiskies and elegant, refined malt whiskies epitomises “deliciousness” in the world of Scotch whisky.

The Secret is in the Oak

The secret to making *Asyla* is the quality of the casks. We use only whiskies aged in first-fill American oak casks because these yield whiskies with more vanilla character, more richness and more sweetness than refill casks. *Asyla* is made with 50% malt whisky. There are few blended Scotches that use as high a malt content as we do at *Compass Box*. The result is a carefully crafted, elegant blended Scotch whisky that makes the perfect aperitif.

The Signature Range from *Compass Box*

Asyla is part of the *Signature Range* from *Compass Box*. The five Scotch whiskies in this range cover the entire spectrum of Scotch whisky styles, from the delicate, sweet character of *Asyla*, to the subtle vanilla, clove and fruity characteristics of *Oak Cross*, the rich and spice notes of *The Spice Tree*, the peaty-smoky character of *The Peat Monster* and the elegant flavours of vanilla cream, toffee and coconut in *Hedonism*. Each is made from the highest quality casks, to create more complexity. The whiskies are combined according to each recipe and returned to casks for marrying up to 24 months before bottling. Steps like these enhance complexity, flavour integration and soft mouthfeel. Extra steps, but we think they're worth it.

Flavour Descriptors

Sweet, delicate and very smooth on the palate, with flavours of vanilla-cream, cereals and a subtle apple-like fruit character.

Recommendations

Ideal as an aperitif served in a white wine or similar glass with chilled water to taste. Try before a meal with shavings of Parmigiano Reggiano.

Distillery Sourcing

Single malts from the towns of Alness and Longmorn; single grain whisky from Fife.

Wood

100% first-fill American oak ex-Bourbon.

Bottling Details

Bottled at 40%. Not chill filtered. Natural colour.
