

HEDONISM

BLENDED GRAIN SCOTCH WHISKY

Our Signature Whisky

Hedonism is our unique and award-winning blended grain Scotch whisky.

We produce it once or twice per year, depending on our ability to source the quality of casks we require. Rare and old, it's something special for both the collector and the new whisky enthusiast.

When good Scotch grain whisky is aged in good quality American oak casks, the results can be stunning: a rich, sweet, alluring whisky, redolent of vanilla, pastry cream and coconut.

You'll find all these things in our **HEDONISM** bottlings.

The inspiration behind our whisky **HEDONISM** is just that – pleasure, enjoyment, a celebration of that ideal marriage between distilled spirit and high quality oak maturation. This is a whisky that will appeal to both the ardent whisky enthusiast and newcomers to whisky alike.

HEDONISM is unusual in the Scotch whisky world: a blended grain Scotch whisky. It is very rare to see 100% grain whisky bottlings, in Scotland. Going back 100 years, grain whisky brands were more common, but they were overtaken in popularity by the big brands of blended Scotch, which comprised both grain whisky and malt whisky. Today, most Scotch grain whisky gets blended into the big brand names, typically at young ages. For Hedonism, we search for old casks of Scotch grain whisky. And we only produce **HEDONISM** when we find casks with the right flavour profile.
