## PILSNER

4-5% ABV

### The Spice Tree

#### ALL ABOUT EASE

Lighter than an IPA and hoppier than a lager, pilsners are bright, crisp, and refreshing, with a pronounced grain character.

#### PAIRING NOTES

The bold baking spice notes of The Spice Tree will balance the light crunchy maltiness of a pilsner. The whisky leaves a lasting fudgy sweetness as the beer crisps up during its short finish.

#### OTHER DETAILS

The beer we will taste (Big Smoke Pilsner) has been hopped with Herkules and Saaz; 4% ABV.

#### RECOMMENDED BEER PAIRING

Pilsner.

## IPA/DIPA (DOUBLE IPA)

5-9% ABV

### The Story of the Spaniard

#### BOLDNESS OF FLAVOUR

IPAs come in all shapes and sizes, but they tend to be rich in body, high in hops, and full of delicious fruity notes.

#### PAIRING NOTES

The Story of The Spaniard becomes bolder still when sipped beside an IPA. The jagged-edged hops work beautifully with the whisky's creamy texture, while a citrusy ale will harmonise with its medley of jammy fruit flavours.

#### OTHER DETAILS

The beer we will taste (Big Smoke Secret Machine DIPA) features Cashmere and Azacca hops and has been brewed with oats and crystal malt; 8.2% ABV.

#### RECOMMENDED BEER PAIRING

IPA or double IPA.

## STOUT/ PORTER

5-10% ABV

### The Peat Monster

#### RICH AND SUBTLE SWEETNESS

Rich, dark and complex. Stouts and porters are characterised by a full body and thick mouthfeel, often accented with chocolate or coffee notes.

#### PAIRING NOTES

This is a really toothsome pairing. The roasted 'chocolate' malts used to make these styles of beer lend a richness and subtle sweetness to The Peat Monster. Expect a lingering flavour of toasted coffee beans and smoky brown sugar.

#### OTHER DETAILS

We will be exploring Big Smoke Shadowlands Imperial Stout. Choose your beer wisely here. Stouts with too strong a coffee note have been known to clash with The Peat Monster.

#### RECOMMENDED BEER PAIRING

Stout or porter.
